

# SORRENTO SHUTTERS

Sorrento and Montego Aluminium shutters can be used with confidence as an internal or external window covering without having to worry about the blades warping, twisting or getting wet.

Combining the warmth and charm of a plantation shutter with the strength and durability of powder coated aluminium. Custom made locally to suit your home, ensuring quick turnaround time. FLYSCREEN option also available.

Lifetime Guarantee on all internally fitted shutters

\*Conditions Apply.

## QUICK SLAT

Stylish and durable, Quickslat privacy screen is the attractive, easy solution to all your screening needs. Decks, patios, pools, fencing, windows or just about anywhere, Quickslat Privacy Screens give you the privacy and separation that you need without compromising quality.

Made using powder coated aluminium, they won't rust and are much longer wearing than timber products.

Available in a wide range of stylish powder coated colours you will be sure to find the look you're after. Available in 70 & 38mm blades.

# CALYPSO

Complete climate control with privacy and easy maintenance, Calypso Aluminium Louvre System will protect your home from UV rays and allow the cool breezes to preserve energy for a greener lifestyle.

The 70mm aerofoil blade creates a modern durable finish with a simple turn of the handle to adjust the blades. Handles can also be fitted inside the house making it accessible for two storey projects.

Motorisation also available.  
Controls Internal/External.

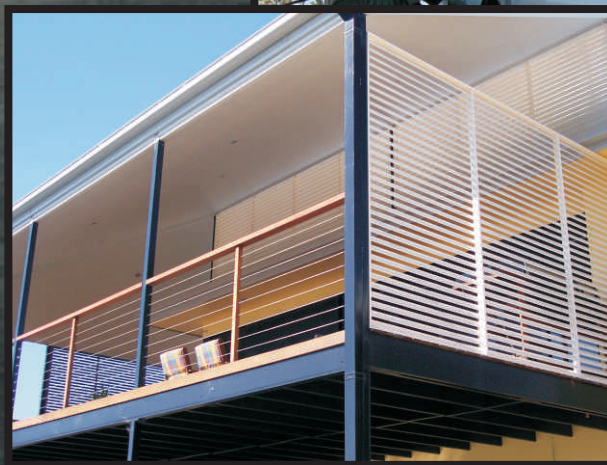

## SEEVIEW

Seeview louvre system provides you a modern and low maintenance solution to privacy and weather control.

Great for building in patios and outdoor entertainment areas to give that extra protection when entertaining guests. Simple and easy blade adjustment by rotating with your hand.

Custom made designs and colours to suit any décor.
